# Prestigic Fence Products

Like many of you, we started our fence journey when a family member- Dad, Mother, Brother, or Sister- put a fence tool in our hands and told us to go help. The fence industry has been built on generations of families building a business based on the community's and families' needs. The same is true about us at Prestigic Vinyl Creations. Dan Wilson started his journey in the fence industry with his dad while living in the great state of Michigan. As just a young boy, his dad put him to work helping where needed, not knowing he was equipping Dan with a lifelong profession; one that he would use and develop from the early days as a helper to an installer and then to owning his own fence company in Middle Tennessee in 1983. Dan and his wife Teresa saw the need for a new fence product category, PVC Vinyl. In 2000 Tennessee needed someone to fabricate PVC profile materials into finished goods so they equipped themselves to serve the fence industry as specialists in this category and haven't looked back. They began with the thought, "If you can draw it, we can build it" and have now been serving the fence industry for 36 years.

We at PVCFP have been blessed to grow our service area to the Mid-South region of the US over the years. We've grown from a small fence guy in Michigan to a trusted fence supplier now in Centre, Alabama for the many great people we call our customers. Please let us help you grow your business, one fence job at a time. We stock standard to custom PVC vinyl fencing in many colors and standard residential Aluminum in black.

# Process

The process of a PVC vinyl fabricator involves several steps, from the initial stage of having the profile material in the yard to the final stage of delivering the finished product to its destination. The first step is to unload the profile material from the truck and inspect it for any damages or defects. The material is then sorted and stored in the yard until it is needed for production. Once the production process commences, the profile material is loaded onto the machines, where it is cut to create the desired product. Quality checks are done at each stage to ensure that the final product meets the required standards. After the production process is complete, the finished product is packaged and labeled for delivery. The delivery process involves loading the products onto trucks and transporting them to their final destination, where they are unloaded and installed according to the client's specifications

## WHAT'S COVERED? WHO'S COVERED? HOW LONG?

Subject to the conditions and limitations listed herein, Ply Gem Fence and Railing\*, warrants its vinyl fence, deck and railing products to be free from defective workmanship and materials and, when subject to normal and proper use, against surface peeling, rot, ground insects, splitting, corrosion, flaking, rusting and blistering, abnormal weathering or abnormal discoloration. Ply Gem Fence and Railing\*, warrants only those products manufactured by it. This warranty extends only to the original purchaser, except as specifically provided herein. This warranty does not cover the cost of installing any product, the cost of removing or disposing of any product, or the cost of installing any replacement product furnished under the terms of the warranty.

The lifetime coverage of this warranty only covers Ply Gem Fence and Railing\* products used on freestanding, detached residential property where the owner resides, during the owner's lifetime. The lifetime coverage may be transferred upon the terms and conditions described below. The warranty coverage will not be prorated.

The warranty period for products installed on property that is not freestanding, detached residential property where the owner resides, including but not limited to schools, condominiums, apartment buildings and rental property - or on property owned by other owners including but not limited to corporations, government agencies, partnerships, trusts, religious organizations and cooperatives, will be thirty (30) years following the installation of the products and is limited to the original owner (non-transferable).

## EXCLUSIONS

Ply Gem Fence and Railing\*, shall not be liable for and this warranty does not apply to any failure, defect or damage resulting from or connected with the following:
